IMPORTANT TO ALL.

DR. SWAYNE,

The discoverer and compounder of the far-famed

Compound Syrup of Wild Cherry

and other valuable preparations, entered upon his professional career with the important advantage of a regular medical education in one of the oldest and best schools in Philadelphia, and, perhaps, in the world. He subsequently served a faithful term of practice in the Philadelphia Dispensary, and for many years attended in the Hospital. In these institutions he enjoyed the most ample opportunities of obtaining an insight into diseases in all their various forms, as well as for ascertaining the best methods of their treatment. In offering, therefore, to the people of the United States the fruits of his extensive professional experience in the medical compounds as the best results of his skill and observation, he feels that he is but proffering a boon to every family throughout the land, resting, as he does, confidently in the merits and efficacious virtue of the remedies he herewith commends. The vast amount of testimony from all parts of the world has proven "DOCTOR SWAYNE'S COMPOUND SYRUP OF WILD CHERRY" the most efficacious remedy known, and it is admitted by our most eminent physicians, and all who have witnessed its wonderful healing properties. The WILD CHERRY in all ages of the world and in all countries where it is known has been justly celebrated for its wonderful medicinal qualities, but its great power to cure some of the worst and most distressing diseases among us was never fully ascertained until the experiments of that skilful physician, Dr. Swayne, had demonstrated its high adaptation, in combination, with Pine Tree Tar, and other equally valuable vegetable ingredients, which chemically combined renders its action tenfold more certain and beneficial in curing all diseases of the throat, breast and lungs. DR. SWAYNE'S WILD CHERRY COMPOUND strikes at the root of disease by purifying the blood, restoring the liver and kidneys to healthy action, invigorating the nervous and shattered constitution. If your druggist or storekeeper does not have it, do not be put off by any other remedy that may be offered, but send to us direct, and we will forward a half dozen to any address, freight paid, on receipt of the price, $1 per bottle, or $5 the half dozen. Address letters to DR. SWAYNE & SON, 330 North Sixth street, Philadelphia. No charge will be made for advice.

Ask Your Druggist for Them.

Females and all who value health should never be without DR. SWAYNE'S TAR AND SARSAPARILLA PILLS, as the, purify the blood, remove all obstructions, cleanse the skin of all impurities and blotches, and bring the rich color of health to the pale cheek. Female irregularities are restored to a healthy condition. They are a certain cure for Sick and Nervous Headache. As a Dinner Pill, nothing can exceed them: take one, two, or three, as may be found necessary; unlike others, they neither gripe, produce nausea, or any other unpleasant sensation, while they are as powerful as it is possible for a medicine to be and be harmless. These Pills cleanse out the disordered humors, enrich and purify the blood, remove all unhealthy bilious secretions of the stomach and bowels, causing a perfectly healthy state of the liver, and are undoubtedly the best cathartic and antibilious medicine yet discovered; and we are determined that the sick shall have them at a price within the means of the poorest (25 cents a box of 30 Pills.) If your druggist or storekeeper has not got them, do not be put off by any others that may be offered in their place, but send to us direct, and we will forward by mail, on receipt of the price, 25 cents a box or five boxes $1.

Itching Piles

is generally preceded by a moisture, like perspiration, distressing itching, as though pin worms were crawling in or about the rectum, particularly at night when undressing, or in bed after getting warm. It appears in summer as well as winter, oftentimes more freely around the private parts, and is not confined to males only, but is quite as frequent that females are sorely afflicted, particularly in times of pregnancy, extending to the vagina, producing distressing almost beyond the powers of endurance. Cases of long standing, pronounced incurable, have been permanently cured by simply applying

TILDEN'S INCOME TAX.

CRUSHING REPLY TO HIS DEFAMERS.

ACCESS TO OFFICIAL RECORDS DENIED TILDEN, MOST OF THE ALLEGED RECEIPTS WHOLLY FICTITIOUS AND FALSE —EVERY CHARGE FULLY ANSWERED IN DETAIL.

Special Dispatch to the Times.

NEW YORK, September 20, 1876.

The following statement, embracing Governor Tilden's answer to the charges of the New York *Times* touching his income returns, is given for publication by the Hon. Abram S. Hewitt, chairman of the National Democratic committee:

To the Public:

The New York *Times*, which for years prior to 1875 had been the eulogist of Governor Tilden, immediately after he became a formidable candidate for the Presidency began a series of assaults upon his private character. At length these assaults culminated in the charge of making a false statement of his income in 1862. By dint of reiteration and fabricated specifications of items and details, having the semblance of actual accounts, some well-meaning persons were disturbed. It therefore occurred to me to apply to the Secretary of the Treasury for certified copies of the income returns of Governor Tilden and of Governor Hayes, and on the second day of September I made such an application. The copies applied for have not been furnished, nor indeed has my letter received the poor courtesy of an acknowledgment. Meanwhile, the adversaries of Governor Tilden have apparently had free access to these returns, and have even been permitted to photo-lithograph so much of them as suited their purposes. I submit this fact to the American people without comment. Meanwhile, receiving no reply from the public authorities, who seem to regard the documents in their custody as held in trust for the Republican party, and not for the whole people, I addressed a note to Judge James P. Sinnott, who was the confidential law clerk of Governor Tilden during the whole period in which the law imposing an income tax was in force, asking him to examine the pretended account of Governor Tilden's income during the year 1862, published by the *Times*, and furnish me with such explanations in regard thereto as his necessary familiarity with the details would enable him to supply. I have this day received his reply, presenting a full and entirely satisfactory refutation of the charges of the *Times*.

His answer, herewith submitted to the public, shows that out of thirteen pretended items of income amounting to $110,000, eleven items amounting to $84,000 are wholly fictitious, while of the other two only one of $1,000 is entirely true and the second of $25,000 is only partially true.

There is therefore no ground for the assertion that the sworn returns were not a just and accurate statement of the net income of Governor Tilden, after making such deductions for losses, interest paid and other charges as the law authorized him to make.

If exception be taken to Judge Sinnott's letter on the ground that it does not contain a detailed statement of the several items upon which the return of 1862 was made, it is proper to state that the regulations of the department did not require such detailed statements, and very few professional men made such statements, or could now recall the items or have kept the memoranda upon which their returns were made.

If Governor Tilden was not in nomination for the Presidency, I do not know of any man in this community whose mere statement of a fact would have been more generally accepted as the truth, and I fail to see why the eminent position in which he has been placed by a large body of his fellow citizens should be held to detract from the sanctity of his oath.

ABRAM S. HEWITT.
Chairman National Democratic Committee.

NEW YORK, Sept. 20, 1876

REPLY OF JUDGE SINNOTT.

NEW YORK, September 20, 1876.—*Hon Abram S. Hewitt, Chairman—My Dear Sir:* I have received your note, with the copy of the *Times* of September 8, in reference to Mr. Tilden's income return for 1862, and have taken the earliest time which my official engagements would permit to send you the information you solicit.

I was in Mr. Tilden's office during the whole period covered by the allegations in the *Times*, and was more familiar than any other person—perhaps even than Mr. Tilden himself—with his professional services and with the earnings of his office, it being among my duties to keep such record or memoranda of them as was preserved. The charges to which you specially refer are epitomized and placarded on the front page of the *Times*, where, in parallel columns are displayed a fac simile of Mr. Tilden's income tax return for the year 1862, contrasted with a pretended statement of his real income for that year. I have examined this statement with care, and from my personal knowledge find it to be false in every important particular.

The first thing in this fabrication of the *Times* which arrested my attention was the evident intent to mislead, which characterizes it. It purports to be made up of separate items, the wording of which is varied in order to give the reader the idea that these items had been taken directly from bills, or accounts which had been rendered to some one, or had been entered in some book of account. For example, the first item reads: "February 19. Fee for trustees and master commissioners' deed." etc.; but the wording of the second item is made different, and reads: "February 25. Fees and expenses with reference to deed," etc., and the third item is put in still another and different mode of expression, thus: "March 1. For drafting, etc., first mortgage deed," while in the fourth item the word "fees" (and this time without the "expenses") is brought into requisition. The obvious intent of these contrivances is to give color to these bogus items and the appearance of being copied from some real paper.

THE FIRST SIX ITEMS.

The first six items of this statement relate to matters connected with the Pittsburg, Fort Wayne and Chicago Railway, and a right understanding of Mr. Tilden's relations to that enterprise, prior to and during the year 1862, is important at the outset. Now, the fact is that no such accounts as are contained in these six items ever existed, and no one of these pretended items has ever been made the subject of a specific charge by Mr. Tilden against any individual or corporation whatever. Mr Tilden became counsel for the holders of various classes of bonds secured upon the Pittsburg, Fort Wayne and Chicago Railroad, which was and is a railroad running through four different States and built in sections by three different corporations; which were afterwards consolidated. When Mr. Tilden became counsel for the bondholders in 1859, it had outstanding nine different classes of bonds, upon all of which default had been made, and its affairs in general were in apparently hopeless bankruptcy and confusion. To rescue this enterprise Mr. Tilden labored continually, and much more laboriously than a lawyer ordinarily does in regard to any one particular case, from 1859 to the early part of 1862. The labor was particularly arduous during the years 1760 and 1861. Suits of foreclosure were instituted early in each of the States, and these had so far progressed by June, 1861, that decrees of foreclosure and sale were then entered. The road was actually sold on the 24th of October, 1861, and possession taken under the sale. Of course, this could not be accomplished until all the conflicting interests—the nine different classes of bondholders, the secured creditors, the unsecured creditors, and the stockholders—had been harmonized and satisfied; nor until legislative acts adequate to meet a case such as had never before arisen, either here or in England, had been devised, prepared and successfully passed in four different States. All this was accomplished under the advice and with the labor of Mr. Tilden before the close of the year 1861. His engagements on account of this railroad during that whole period were constant and engrossing. Whatever pay he received was for the entire service as a whole—it was not itemized or apportioned.

THE INCOME TAX LAW.

The income tax law went into effect on the first of January, 1862, and the incomes falling under its operations were those accruing from and after said first day of January, 1862. Income which had accrued before that time was exempt from its operation. I do not think it necessary to occupy much time or space in discussing the legal aspects of this income question, or in sustaining the right of a citizen to receive and retain free from income tax moneys which he had already earned by his own labor in years when no income tax existed. The rule on this subject was early declared and promulgated by the Internal Revenue Department itself and is in full accord with these views. In 1861 Hon. George S. Boutwell, then late Commissioner of Internal Revenue, prepared a "Manual of the Direct and Excise Tax System," which Mr. Secretary Chase officially approved and authorized. Under date of May, 1863, this manual contains (pp. 273, 274) the following decision by the Commissioner of Internal Revenue: "A merchant's return of income should cover the business of the year 1862, excluding previous years. Physicians and lawyers should include actual receipts for services rendered in 1862, together with an estimate of unrealized or contingent income due to that year." In view of these decisions and official instructions of the Internal Revenue Department Mr. Tilden's income return for 1862 was made up so that even if a different view had since been authoritatively held and expressed Mr. Tilden would stand completely justified. But there is no authority for any different view.

THE CHARGES IN DETAIL.

With these preliminary observations, I will proceed to examine the fabrications of the *Times* in detail. The following is a copy of the *Times'* statement:

"THE FALSE INCOME RETURN OF SAMUEL J. TILDEN FOR 1862."

A fac-simile of the Democratic candidate's affidavit, contrasted with several items of his income—A convincing though incomplete showing, which convicts Mr. Tilden of perjury and of cheating the Government.

Some Items of the (alleged) True Statement.

EXAMINATION OF ITEMS.

First item.—This is entered under date of February 19, 1862, as a "Fee for Trustees and Master Commissioner's Deed, &c., $5,000." No such charge was ever made, rendered or collected by Mr. Tilden or any one on his behalf at the date mentioned or at any other time. The instrument itself was a simple trustees' and masters' deed, principally consisting of recitals adapted to the case of a railroad foreclosure, and peculiar chiefly in the magnitude of the property conveyed. The preparation of such an instrument could form no item of charge worth considering in a payment for an entire service of years, and no specific charge whatever was ever made for it.

Second Item.—February 25. "Fees and expenses, with reference to Deed of former Railroad Company, pursuant to the order of Court, &c., $2,000." No such charge was ever made, rendered or collected by Mr. Tilden. In point of fact the document, which is not quite so long as an ordinary deed, and was intended to have the effect of a quit claim, was not drawn by Mr. Tilden at all, but by Judge N. H. Swayne now, of the U. S. Supreme Court. Mr. Tilden was never paid for it in any shape.

Third Item.—March 1. "For drafting, etc., First Mortgage Deed of Reconstructed Corporation, $5,000." No such charge as this and no specific charge whatever, was ever made, rendered or collected by Mr. Tilden. The instrument itself was unquestionably a very important one and admirably drawn, but it was only one item of continued service running back to the year 1859, and the rules which would govern a charge under an employment to draw a single paper of this description have no application at all in this case.

Fourth Item.—March 1. "Fees for Second Mortgage Deeds, etc., $2,500." No such charge was ever made, rendered or collected by Mr. Tilden. The observations in regard to the first mortgage apply equally to this, with the additional force that being, from the nature of the case, in most respects a copy of the first mortgage, it furnished a great deal less basis for a charge. In point of fact no specific sum was ever paid for it.

Fifth item.—March 1. "Fees for third mortgage deed, etc., $4,500." The absurdity of this charge is transparent. This third mortgage was on the same property, and drawn for the same client, as the second, but secured an indebtedness only about two-fifths as large, and yet this statement puts down $4,500 as the fee for drawing the third mortgage as against $2,500 for the second. Of course no such charge, or any other specific charge, was ever made by Mr. Tilden for the drawing of this instrument.

Sixth item.—March 2. "Fees for final conveyance to railway company, subject to the mortgage, Pittsburg, Fort Wayne and Chicago Railroad Company, $5,000." Mr. Tilden never made, rendered or collected, nor was he ever paid, any such bill or item in a bill. Nor is there anything but the dates of these deeds on which to base the assumption that the work on them was exclusively done in the year 1862

MR. TILDEN'S CHARGES.

And right here, it is proper to say a few words in regard to Mr. Tilden's scale of charges. It is a great mistake to suppose that counsel must have been paid in 1862 at the high rate which ruled in subsequent years. Mr. Tilden at that time was in the habit of charging very low prices. The class of business in which he was engaged required, particularly, great skill in negotiation—a thorough knowledge of men, a thorough knowledge of the railway system and business condition and prospects of the country, and a constructive power of devising and suggesting ways and means of reconciling apparently conflicting pecuniary interests to the permanent benefit and satisfaction of all concerned. The mere drawing of papers was hardly thought of in estimating the value of Mr. Tilden's services. He was paid because he reconciled and rescued, as no other man in this country could then have done, interests worth millions which to many persons seemed hopelessly lost. Yet in this publication he is set down, upon mere surmise and without any data or authority, as receiving twenty-four thousand dollars for work which could not reasonably have occupied more than one month of his time, while the answer in the St. Louis, Alton and Terre Haute case discloses the fact that he was working at the same class of business and about the same time at the rate of twenty thousand dollars for four consecutive years' service, or at the rate of five thousand dollars a year.

MORE ITEMS.

Seventh Item.—"June 14, Cumberland Coal and Iron Company, $5,000." The *Times* allows that one-half of this sum should be deducted, on the ground that it was probably not earned in 1862. Neither was any of it. Governor Tilden rendered no services to the Cumberland Coal and Iron Company in that year. He did render it important services during previous years, beginning with 1858, but they were all concluded before the close of 1861. If anything was received it must have been in bonds, and in settlement of an old account and not taxable.

Eighth Item.—"October 17, service to Second Mortgage Bondholders of St. Louis, Alton and Terre Haute Railroad Company, as per affidavit, $10,000." Of course no bill was ever rendered by Mr. Tilden in the above form. But this item, and the one next following, furnished the only basis on which the *Times* started out on this defamatory crusade. It pretended to have discovered an inconsistency between Governor Tilden's return of income in 1862 and certain allegations contained in an Answer in Equ

THAT INCOME TAX.

In our opinion the stereotyped campaign lie about Tilden's income was so glaring that it needed no refutation. But the answer is so complete and crushing that we give it space, and call the special attention of our Republican readers to it, because their party organs whilst quick to start a slander, will never publish the vindication.

The action of the Government in refusing Mr. Hewitt copies of the income returns, but strengthens the popular opinion that this is not a government *by* the people, *for* the people, but a government carried on for the purpose of slandering honest men, and screening the corruption of Republican officials.

THE END OF HELL GATE.

The blowing up of Hell Gate reef was successfully accomplished on Sunday afternoon last without any damage to property, not even so much as a broken pane of glass in the houses along shore. Gen. Newton of the regular army has been the engineer of the work and may well be congratulated on having achieved one the greatest engineering feats of the century. 52,000 pounds of explosives—rendrock and vulcan powders and dynamite—were used in the explosion and electricity was the means employed to fire this enormous mass of twenty-six net tons. The key of the battery which ignited the charges was pressed by the tiny hand of the General's little daughter Mary, two and a half years old, and in a moment a mighty column of water rose seventy feet in the air carrying with it a gigantic rock weighing at least sixty tons; the earth trembled and as the water fell back a huge wave rolled away to the shore. It is estimated that 250,000 people witnessed the explosion.

The Democratic press is publishing an article headed, "Where are the Independents going?" and among others named as working for Tilden and Hendricks we see such persons as Chas. A. Dana, Alex. McClure, Gov. Curtin, Eli Slifer. Why, bless the innocents' souls; these men were driven from the Republican party, because of their unfitness! If you can't get up better material for independents, then stop at once.

The above cheerful little paragraph is taken from the *Clinton Republican* edited by Mr. John Bannister Gibson Kinsloe and published in Lock Haven. To fully appreciate the full beauty of the sentiment it is necessary to remember that Mosby, Boss Shepherd, Babcock, Harrington, Ben Butler, and also McKee, Avery and a few others now in the Penitentiary are members of the Republican party in good standing. How much the country has gained by the expulsion of Charles Sumner and the gentlemen mentioned in the article quoted it is difficult to determine—what it has lost is very apparent. Zack Chandler and Morton are the leaders of the party now, and we hardly think the better class of men in the country will deem them superior to Charles A. Dana and ex-Gov. Curtin.

Burning the Crosses from Graves.

LANCASTER, Sept. 15.—At a Republican bonfire and meeting in this place, on Wednesday night, crosses were taken from graves in St. Joseph's German Catholic graveyard and piled on the fire.

We republish the above dispatch. Has it come to this, that the graves of the dead are to be desecrated, to gratify the malignancy of Radical intolerance? Is proscription by Know Nothings,—by Hayes' secret "Alliance" again to take root in America,—the boasted "Land of the free, and home of the brave?" Is the Declaration of Independence a lie when it invited all classes and creeds hither, and authorized them to worship Almighty God according to the dictates of their own consciences? Is our Constitution a lie when it says that "Congress shall make no law respecting the establishment of religion, or prohibiting the free exercise thereof?" Or do our opponents in their desperation desire to renew a sectional war, and inaugurate one of race and religion? Thinking men, Beware!

Office holders under the Grant administration are having a lively and enjoyable time just now. Zack Chandler who is running the Republican party in the interest of Hayes, has just made his second levy of two per cent on the salaries of government officials for campaign expenses. It's early yet in the fight and after Ohio and Indiana are disposed of in October, there will probably be some more two per cent subscriptions before the November election. Zack is following the plan laid down by Kilpatrick "the bloody shirt with money." Grant subscribed $1000 which is two per cent of his salary—will Zachariah call on him for his second subscription?

The Boston *Post* thinks that "as a political curiosity, the man who has been elevated to the United States Senate as a means of enabling him to evade the investigations of the House is worth going to see; for his species will soon become extinct and fossil." By all of which is meant Blaine of Maine.

It looks very much as if the campaign against the Indians was about at an end and the red skins are decidedly ahead. The troops have suffered terribly not only at the hands of the Indians, but from hunger and exposure. The result may be summed up as follows: hundreds of soldiers and valuable officers killed and many millions of money expended for a few dead Indians and a handful of prisoners. Mr. Sitting Bull could carry on this kind of warfare until he died of old age, and his followers with him, before they could be conquered at such a rate of destruction. The Indian campaign has been an utter failure and the people might as well know it. The great Sheridan has managed the affair.

If there be one thing more than another which impels us to the belief that the negro is unfit for the ballot, it is this: that after the Freedman's Bank swindle was fully exposed and made public—and none knew better than the negro how complete this swindle was—he still continues to vote for the men who robbed him. A dog will lick the hand that beats him, but a free man who is fit to exercise the rights of a citizen should have more independence and strength of will. The negro has been a tool of Republican politicians since the war closed and not even when plundered by his masters can he break loose from his chains.

Two Mollie Maguires, John J. Slattery and Michael Doolin, charged with conspiracy to murder Wm. and Jesse Major, were convicted at Pottsville on Saturday.

Blaine and Tilden.

"I am opposed to Mr. Tilden," said Blaine at Boston, "because at a great crisis in his country's fate he proved unfaithful, and when it lay bleeding at every pore from wounds by rebel hordes he passed by on the other side." Yet Sam Tilden was a better Union man than Jim Blaine. It is only since the fighting stopped that the latter has been greatly exercised about his bleeding country.

When that country "lay bleeding at every pore from wounds by rebel hordes," Blaine happened, to be drafted. Of course he rushed at once to hurl back the rebel hordes and stanch every pore of his bleeding country? Oh, no; he hired an able bodied substitute, and provided him with a soft cushioned chair in the provost marshal's office at Augusta. The able bodied substitute was shortly removed to the county jail for stealing; but Blaine was too busy making a fortune out of Spencer's rifle contract to hunt for another.

This is the extent of Blaine's war record, and, as we have said, Sam Tilden's is vastly honester, more patriotic, and more creditable. The true reason why Blaine opposes Tilden was not mentioned at Boston. It is the same reason which every rogue has for fearing and hating the uncompromising enemy of rascality and rascals.—*N. Y. Sun.*

WORCESTER, Sept. 6.—Chas. Francis Adams has been nominated by acclamation.

Massachusetts nominates Charles Francis Adams as Democratic candidate for Governor. The old time democracy hated the name of Adams as they pretended to hate "Blue Light Federalism."—Whether Mr. Adams is a democrat now they do not ask. They know that he is a representative of Yankee educated aristocracy, a little more impracticable than was Charles Sumner, and they hope to secure votes from the ranks of their enemies by the nominations. How are the Democracy fallen.—*Record of the Times.*

The Republicans are concentrating their abuse on such men as Charles F. Adams, and the dead Sumner,—men who founded the Republican party, and had the confidence of Lincoln and his supporters. They were made welcome to the Democratic party after the Butlers, Babcocks, Belknaps, and Camerons had usurped control of the Republican organization and made it the party of plunder and corruption. How have our opponents fallen to villify their purest and ablest men!

All that is now necessary is for the Georgia Democrats to swear half as hard as Tilden did on his income to enable them to disfranchise the whole colored population of Georgia under the provision of the infamous law below cited. It is a master piece of Democratic strategy:

Under a recently enacted law of Alabama, larceny works a forfeiture of the voting franchise, and, as an Augusta, Ga., paper states: "If a person steals a pig or a chicken down there it is a penitentiary offence, and the thief forever forfeits his right to vote."—*Gazette & Bulletin.*

Our neighbor is disgusted because the Georgia law punishes both black and white for theft. It is an admission that the colored Republicans are thieves, and a regret for their punishment. It occurs to us that the best plan would be for the colored men to stop stealing. It is good advice, also for some of their political masters high in office.

The yellow fever is raging terribly at Savannah, over 2000 cases having been reported. The mortality is greater than has ever been known before. There were 60 deaths in one day last week. The disease has also broken out in Charleston and bids fair to become epidemic. In Brunswick, Ga there are 600 cases—about half the population of the town. The state of Georgia appeals to the country at large for assistance as the expenses have grown very great, amounting to over $3000 per day in Savannah alone. Generous contribution have been made by the merchants of New York city and the insurance companies of Hartford, Conn. The destitution in Savannah is reported as being frightful.

By the death of a near relative, and careful use of means at command, Gen. Washington was wealthy before entering upon duty as commander-in-chief of the army. He was thus independent in temporal affairs and was never open to the suspicion of greed or corruption. By the partiality of a wealthy bachelor uncle, and his own industry and care, Gen. Hayes also is in the enjoyment of large wealth, which places him beyond reach of ordinary temptations to use his portion to advance his fortune.—*Lewisburg Chronicle.*

Very good; and as Gov. Tilden is much more wealthy than either General Washington or Mr. Hayes, it follows as a matter of course that he is the fittest man for President. Much obliged to you, Mr. Chronicle, for the premises from which we can draw so pleasing a deduction.

In Forest county, on Thursday of last week the mountain streams became greatly swollen from the recent storm, the waters flooding the partly-settled valleys in the lumber regions and doing much damage. Near Ralston sixteen persons lost their lives. In McKean county the storm was of long duration and severe. Two persons were drowned near Southport. In Tioga county three lives are known to have been lost, and it is authentically reported that four persons were drowned while attempting to cross a swollen stream at Wellsport.

The "light in the East" is what the Rads now call Vermont. She was a light in the East in 1812, when her Legislature passed an act prohibiting her militia from leaving the State to aid in the national defense. She was a light then, but it was a blue light. She has been voting the anti-Democratic ticket ever since.

You cannot set a duck on goose eggs and hatch anything but goslings. No amount of shouting, or of entreaty, or of eulogies on the duck will alter the result. You cannot set a Hayes on the eggs of Grantism and produce anything but a brood of corruption, and its no use trying.—*N. Y. Sun.*

Another frightful maritime disaster is reported. The British ship Lammermoor is thought to have foundered at sea, with all hands on board, numbering 350. She was a first class iron vessel of large dimensions and unusually well built

The Machine Was Worn Out.

Why? Not because it was not well built, but it was wrongly run. Thousands of men who have run down long before their three score and ten years are accomplished, might have been renewed into sprightliness and vim if they had tried the well known Peruvian Syrup, which contains among its compound the Protoxide of Iron, so combined that it assimilates with the blood and invigorates the whole system. The syrup has proved efficacious in thousands of cases, and will do everybody good who uses it. All druggists keep it.

Important to Centennial Visitors.

Many of our readers who yet intend to visit Philadelphia, will wish to do so at the least possible cost and trouble. They will not wish to pay hotel rates when they can obtain good accommodations at private and boarding houses at one-third hotel rates. During September and October the crowds will be so large that they cannot be accomodated at hotels, and to avoid trouble on their arrival all should know where they are going to stop, before leaving home. You can obtain good accommodations by the week for from $5 to $10, or by the day from $1 to $2. To do this you must write to J. Weaver & Co., 1318 Market street, Philadelphia, and they will, on receipt of $1, to pay them for their trouble and expense, send you a list of one hundred boarding houses, giving the prices charged by the day or week. You can then select a place for yourself, and make arrangements direct with the parties you wish to stop with. In this way you can save from $10 to $25. Should you wish to stop at a hotel they will make all necessary arrangements for you and charge you but $1. *This is our advice. Take it.* State what paper you saw this in.

AN HISTORICAL FACT.—Every agent who has been steadily selling the Improved $20 Home stead Sewing Machine for three years, owns his dwelling house, has a good account in bank, is clear of debt, and has money at interest.—the natural consequence of securing a good agency for superior goods at the lowest prices. A good first-class Sewing Machine, most useful—reliable at all times, easy to understand and control, the same size and does the same work as any machines that sell at four times the price. There is no machine at any price better, or that will do finer or more work, and certainly none so low in price by many dollars. The Homestead is widely known and used in thousands of families in the Eastern and Middle States, and daily becoming popular in the West. It will save its cost several times over in one season, doing the work of the family, or will earn four or five dollars a day for any man or woman who sews for a living. It is the strongest machine made, is ready at all times to do its work, makes the strongest and finest stitch vet invented, and is fully acknowledged as the Standard Family Sewing Machine. Price, complete for domestic use, $20, delivered at your door, no matter how remote you may reside. Business permanent and honorable, with more certain and rapid sales, and larger profits than any other. Extraordinary liberal offers made to local or traveling agents where we have none established; or, if there is no agent near you, send your order direct to the factory. Digest of Election Laws.

Polls open at 7 a. m. and close at 7 p. m.

WHO CAN VOTE.

Every male citizen, twenty-one years of age, possessing the following qualifications, shall be entitled to vote at all elections:

1. He shall have been a citizen of the United States one month.

2. He shall have resided in the state one year; or, if having previously been a qualified elector or native born citizen thereof, and shall have removed therefrom and returned, then he shall have resided therein six months immediately preceding the election.

3. He shall have resided in the district where he intends to vote two months immediately preceding the election, instead of ten days, as formerly.

4. If twenty-one years of age, or upward, he shall have paid, within two years, a state or county tax, which shall have been assessed at least two months previous to the election, and paid at least one month previous to the same.

5. Foreign born citizens must have been naturalized at least one month before the election, and must conform to the requirements contained in section 4, preceding.

The election will be held on "the Tuesday next following the first Monday of November," being this year the 7th day of the month.

Friday, September 8th, is the last day for being assessed.

Saturday, October 7th, is the last day for securing naturalization papers.

Saturday, October 7th, is the last day on which taxes can be paid in legal time to vote.

The above dates should be carefully remembered and acted on by all voters.

SCIRE FACIAS TO CHARGE REAL ESTATE.
COLUMBIA COUNTY, SS:

The Commonwealth of Pennsylvania to the Sheriff of Columbia county, greeting:

Whereas, Lydia Zimmerman, plaintiff lately in our Court of Common Pleas for the county aforesaid, before the Judges of the said Court, at Bloomsburg, to-wit: In the term of May, A.D. 189, in the year of our Lord one thousand eight hundred and seventy-six, by the judgment of the said Court did recover against H. C. Fress, administrator of John Fress, deceased, defendant, as well a certain debt of one hundred and fifty-six dollars and fifty-two cents, as also eighteen dollars for her costs and charges which she sustained by occasion of the detention of that debt, whereof the said defendant is convict, &c., as appears of record, &c. And whereas, the said Lydia Zimmerman is now dead, as has been suggested of record, and that I. K. Ikeler, the administrator, has been substituted as the plaintiff. And whereas the said John Fress died seized of real estate in the said county of Columbia, as we have been given to understand, which descended and came to H. C. Fress, George H. Fress, Hiram B. Fress, John A. Fress, Horace Fress, Isaiah B. Fress, Sallie Ann Intermarried with Jonathan W. Eck, and Nancy Intermarried with Benjamin Hicks, the heirs of the said John Fress, deceased. And further, whereas the said I. K. Ikeler, administrator of Lydia Zimmerman, deceased, has given us to understand that the said judgment, with the interest and costs thereon, remains wholly unpaid and unsatisfied, and has been brought to us to provide for him a proper remedy in this behalf: And we being willing that what is justly acted in our said court should be brought to due execution according to the form of the act of assembly in such cases made and provided, command you that you make known to the said H. C. Fress, William L. Fress, George H. Fress, Hiram B. Fress, John A. Fress, Horace Fress, Isaiah B. Fress, Sallie Ann Intermarried with Jonathan W. Eck, and Nancy Intermarried with Benjamin Hicks, that they be and appear before our Judges at Bloomsburg at our County Court of Common Pleas there to be held on the first Monday of December next, to show cause, if any thing they know or say why the said judgment so recovered against the said H. C. Fress, administrator of the said John Fress, deceased, shall not be levied and paid out of the said real estate of which the said John Fress, deceased, died seized as aforesaid and now descended and came to them as heirs.

Witness the Honorable William Elwell, President Judge of our said Court at Bloomsburg the twelfth day of September, A. D. 1876.

TO OUR PATRONS.

With this issue of the COLUMBIAN the first year of the present management closes. On October 1st, 1875, Mr. H. L. Diefenbach gave possession of the office to Brockway & Elwell, who have had entire control of the establishment since that time. The amount of patronage that the office has received during the year has been liberal, perhaps equalling, if not exceeding, that of any previous year, notwithstanding the hard times. So far we have no complaint to make. The difficulty has been that while everybody wanted as much printing done as ever before, they wanted to get it at the very lowest rates, and yet expected the printers to wait from three months to a year for their pay. Very few seem to have realized the fact that it takes *cash* to carry on a large printing establishment. Many of our subscribers have not yet paid for the paper, and we are again obliged to remind them of the fact and to urge them to make prompt settlements. Two dollars are as easily paid at one time as another, and while it is a small sum for each of our subscribers, the aggregate of those unpaid is nearly three thousand dollars. From this our patrons can readily see the necessity for our calling attention to the matter so frequently.

We are obliged to pay postage on all papers sent out of the county, and have therefore adopted the following rule, to wit: all subscriptions outside of Columbia county must be paid *in advance*. Those who have not paid for the past year and who desire to continue their subscriptions another year will please send us four dollars. Those in the County can pay any time during the year. It is unnecessary for us to make any apology for this rule, as business men can easily see that while we have to pay cash for postage during the year we cannot afford to wait until the close of it for our money. It is just so much out of our pockets, on which we receive no interest, and run the risk of getting it back. Our patrons out of the county will please note the above and govern themselves accordingly.

Saturday, October 7th, is the last day on which taxes can be paid in legal time to vote.

Where is the eloquent Robison in this campaign? The *Republican* don't mention him.

We are glad to learn that Berwick has a Tilden and Hendricks Club. We hope it will not be captured election day.

Reinhart Gershbacher, one of the defaulting Commissioners, has been sentenced to one years imprisonment and fined $850 on three different cases with costs.

The real equinoctial storm set in on Saturday, that of Sunday having been an eccentricity of Nature, and in no wise connected with the old established annual dampness.

The grape crop is a success this year and the delicious fruit is plentiful and cheap. The Centennial year has certainly been a generous one in the way of fruit.

L. N. Moyer made a speech at the Hayes and Wheeler club on Saturday night.—*Republican.*

We excuse the small "w," but admire Luke's method of getting a cheap advertisement.

The meeting of the Democratic Club, at the Opera House on Saturday evening last, was very well attended. An eloquent and logical address was made by E. E. Orvis Esq. The Drum Corps was in attendance.

We are informed that Prof. H. D. Walker, formerly of the Normal School at this place, is a candidate for State Senator on the Prohibition ticket in Luzerne county. He is well known in this county.

The Plymouth *Index* is waging the fiercest kind of warfare against Dr. S. W. Trimmer, Democratic Candidate for Prothonotary of Luzerne county. It looks as if there might be a little personal feeling at the bottom of it all.

VOTERS, REMEMBER THIS!—"If twenty-one years of age, or upward, he shall have paid, within two years, a state or county tax, which shall have been assessed at least two months previous to the election, and paid at least one month previous to the same."

Chestnuts are ripening fast, and the crop promises to be an abundant one. We shall expect to have, before long, local notices of divers young gentlemen tumbling from the trees, as is the custom of youth, but hope to chronicle nothing more serious than a few bruises.

The Fourth Annual Exhibition of the "Union Park and Agricultural Association," will be held in Sunbury on October 3d, 4th, 5th and 6th. From all accounts the exhibition will be the finest ever held there and well deserving the attention of pleasure seekers.

Messrs. W. C. McKinney, John Peacock, F. P. Billmeyer, W. J. Buckalew, G. A. Clark, James C. Brown and A. E. Miller, of the Exchange, started for the Centennial on Tuesday night last. If there is anything in the way of fun in Philadelphia, that party will find out all about it or we are much mistaken.

We said before that the Smiths had to do the work, and Beckley would handle the funds. We were mistaken. Beckley will pay his five per cent. on salary to Col. Jackson, who will put it "where it does the most good." Won't you, Daniel?

On Wednesday of last week a young man named Hartz whilst coupling cars, at Centralia, was caught between the bumpers and crushed to death. His father Levi Hart was present and saw the terrible catastrophe without the power to aid his unfortunate son.

Physicians say that neuralgia is largely on the increase in the faces and heads of women and that it is due to the present style of head gear, which affords but an imperfect protection, and also to the use of cosmetics and washes for beautifying the complexion.

This is a good time to look up your last winter's coats and pants, and see whether a little renovating will not made them look well enough to give away to some necessitous and worthy neighbor.—*Ex.*

Or, more probably, see whether you cannot wear them yourself.

By a decision of Judge Dean of the 24th judicial district, recently, the act of 1864, increasing the pay of witness to one dollar, does not apply to witnesses residing in or within one mile of the county seat. The pay per day of all such witnesses remains at fifty cents, as fixed by the act of 1821.

Some of our exchanges speak of wild pigeons and of the luck of sportsmen hunting them. We have neither seen nor heard of a wild pigeon having been found in this part of the country. Such partiality on the part of the birds is inexcusable. Of course we don't suppose for a moment that any of the editorial fraternity would ill about so small a thing as a pigeon.

Hon. Morrow B. Lowry, of Erie, it is said has become insane and has been placed in the Insane Asylum at Philadelphia. Mr. Lowry was a well known and influential politician who has heretofore been a Republican, but this year joined the Tilden forces. He was an earnest and logical speaker and we regret that his services will be lost to the party this Fall.

We understand it now. At a recent Republican meeting, after the orator of the occasion had finished, some thoughtless boy yelled "Smith." Seventeen men were about to respond, when the Smith *pere et fils* got the floor. The junior had the advantage of position, and eased up the old man's feelings by quoting "Young men for war-old men for wisdom." And then the young man talked about a war he never saw and his *peter* about—well, call it wisdom.

There is no end to the swindlers on foot this year and their principal efforts are made to cheat farmers. The last dodge of which we have heard is in the line of silverware which is offered at fabulously low prices. Don't buy a copper's worth of any of these traveling frauds, for if you do you will certainly repent it. The only safe plan is to buy of well known and reliable men who have regular establishments and who sell goods at market rates.

Officer Bell, of the Philadelphia office of the U. S. signal service, says there is no such thing as an "equinoctial storm," and says that a storm occurs at this time of year "owing to the reaction which follows a prolonged season of dry weather." This may be all very true but there is a storm at about this time of year, annually, and it doesn't seem to make any difference whether there has been a wet or a dry summer, either.

We have often wondered why parents who have children attending school, should consider their duty done if they see the children off in the morning and pay the tuition fees, or school tax, as the case may be. It is really their duty to go occasionally to the school and encourage both teachers and children by evidencing an interest in the progress which is made, and also notice the discipline of the school, the ventilation and the arrangements for the comfort of the children.

The Ex-Chairman of the Republican Committee is in much distress and pain about the "Gigger" pole raising. He should let his soul rest in peace. A handsome pole was erected without accident, our Post-Master was present—and if "Grilly" Mason *did* contribute largely towards the expenses of so uring the "hickory," it is a charge that never can be made against our Post-Master in behalf of his own party.

Our old friend Col. A. K. McClure, editor of the Phila. *Times* telegraphed us for the result of the recent Republican Convention. We gave the result of the action of sixteen gentlemen who pretended to represent the 2000 Republican voters of this county; but brother Beckley insists that we are "malignant Democrats," because Col. McClure saw fit to publish a dispatch sent by us. We can stand it.

The funeral of the late Robert F. Clark took place on Saturday last and was very largely attended in spite of the inclemency of the weather. The services were held in St. Paul's church and the building was filled to its full capacity. The members of the bar of this county attended in a body and a number of members of the Montour county bar were also in attendance. The pall bearers were Joshua Comly, M. E. Jackson, John G. Freeze, E. H. Little, C. B. Brockway, C. G. Barkley, Samuel Knorr and Robert S. Howell. The remains were interred in Rosemont Cemetery.

Wm. P. Miner has resigned his interest in the Wilkes Barre *Record of the Times* to E. H. Chase and Douglass Smith. His son Wm. B. Miner retains a one third interest. Mr. Miner's retirement will be a source of regret to his brethren of the press who have always met with courteous treatment at his hands and the public will miss in him an able and earnest editor who has successfully maintained for many years that rare thing—a really good newspaper.

The senior editor of the *Republican* says:

"Having been chairman for about ten years he positively declined to be continued longer."

Having the files of the *Republican* at hand we challenge the truth of the above assertion, and ask Mr. B. to state what years he was chairman of the Republican county committee. He was originally a Democrat—driftedinto this county—carpet-bagged the available offices—was beaten for delegate to th late Republican county convention, and calls original Republicans like Morris Sloan "Cheap Johnnies." In a word, he declined the chairmanship (if at all) when he couldn't make it himself.

The morning mail failed every day last week greatly to the annoyance of our people. Isn't it about time that something was done in the matter? The trouble probably lies in the anxiety of the railroads to carry passengers to the Centennial. It is all right of course that these passengers should be transported safely and rapidly, but we fail to see that this exonerates the railroad companies from the duty of carrying the mails with regularity, as they are paid for the service and should be made to perform it.

We have received a letter from H. S. Wells, of Hamlet, Mercer County, Illinois, who states that there are a large number of Columbia county people in and about his town. He gives the names of Peter Blue, David Blue, William Lemons, John Gingles, Washington Gingles, Cruser Gray, William Doak, Hiram Cline, Jackson Cline and John Hartman and says there are others. Almost to a man they are for Tilden and Hendricks which shows that their Columbia county education has not been forgotten.

Why is it that people will persist in the stupid and foolish practice of taking votes on the cars to ascertain the strength of Presidential candidates. The results are called "straws" to show which way the wind blows, and straws they are truly—for there is no strength in them. Few men care to give their political bias to a stranger, andone possessed of no authority at that, and it is not probable that one of these so called test votes represents truly the political standing of those voting.

Tramps have long been considered nuisances, but of late they have become dangerous as well. The papers are filled with accounts of assaults, incendiarism, robberies, and all sorts of minor offences perpetrated by these wandering vagabonds, and if, as predicted, they continue to drift about all winter, there will be much trouble to property owners, and especially to farmers, whose houses are generally isolated and much exposed to depredations. It has become a very serious social problem as to what is the best plan to pursue with regard to these gentlemen of the road. There is such an army of them that all the jails in the State would not hold them, even if it were worth while to imprison them; they will not work; they will steal, and are apt, if their demands are refused, to seek revenge by burning barns and outbuildings. There will be trouble this winter.

THE LATE ROBERT F. CLARK.

PROCEEDINGS OF THE BAR.

A meeting of the members of Columbia County Bar convened at the Bar office in the Court House at 8 o'clock Friday evening September 22, 1876 to take action relative to the death of Brother Robert F. Clark. Col J. G. Freeze was elected President of the meeting, and Capt. J. B Robison and Robert S. Howell, Esq., Secretaries.

On motion, Col. Freeze, W. Wirt, Esq., and Col. Knorr were appointed a committee to draft resolutions.

The President, Col. Freeze, was authorized to appoint pall bearers, himself to be one, with authority to fill vacancies and make such changes as shall appear appropriate at the time of the funeral.

The following named persons were finally selected:

J. W. Comly, Esq., M. E. Jackson, Esq., Col. J. G. Freeze, E. H. Little, Esq., Col. S. Knorr, R. S. Howell, Esq., C. G. Barkley, Esq., Capt. C. B. Brockway.

It was agreed that when the meeting adjourned it be to meet at the bar office at a quarter of one p. m. on Saturday to form in a body to attend the funeral.

The President appointed Geo. E. Elwell, R. R Little and H. E. Smith, Esqs., a committee to provide crape and gloves for the members of the Bar who should be in attendance. Adjourned.

Sept. 23, 1876. The members of the Bar convened as per adjournment. Col J. G. Freeze read the following address:

GENTLEMEN OF THE BAR: It is a sad duty which is imposed upon me by the last occurrence. In so small a society as the the Bar of Columbia county, the death of one of the older members seems to leave, and does leave, a great void in the circle. To me it is a matter of more than common concern. I was perhaps for a longer period and more intimately acquainted with Robert F. Clark than any other member of the Bar. It is now more than thirty-four years since he and I were schoolmates in the Danville Academy, then under the charge of Mr. Elisha W. Conkling. It is more than thirty-two years since I attended a select school in the village of Washingtonville, then under Mr. Clark's charge and tuition. It is now more than thirty years since Mr. Clark and I became students at law together in the office and under the instruction of Joshua W. Comly, Esq., and it is more than twenty-eight years since I began the practice of the law in this county with Mr. Clark, who was one year my senior.

I need not say here and to you that Mr. Clark was a born gentleman. In all his long intercourse with the Court no man was more deferential to the Bench, or more courteous to his colleagues of the Bar. In his professional duties he was the soul of honor. During the many years in which we practiced together, and in a somewhat extensive chientage, Mr. Clark and I never had an argument in writing to refer you to anything before the Courts. If he said such a fact should be a limited, such a paper produced, such a cause continued, it was just as well settled as if put in writing and signed sealed and delivered.

Mr. Clark was a law er by intuition. He was well grounded in the principles of the law. And although in the later years of his life he was not a close student, no man ever grappled with him in forensic combat who did not find him well learned in the doctrines of the case before him, and able to present them to the Court and jury with great force and effect. He had a very exact comprehension of the nature of juries, and of the kind and amount of evidence required to carry a cause. Hence he was always a valuable colleague and a dangerous opponent.

Gentlemen, when I look around me I find but few faces left of those who were here when Mr. Clark and myself came to the Bar. I find growing up, a number of young men, men of learning and of character, prepared and preparing to assume the duties which time will soon devolve upon them. In this circle I find myself growing towards the seniority. It seems a very short time since I was the junior, and yet there are but two members of the Bar who outrank me in date of admission. I trust it may be long before their places shall be vacant.

Gentlemen, many years ago Mr. Clark and I were walking together before the Court House, and discussing an event such as has now again happened. And then and there we made a mutual pledge, that in the event of the death of either, the survivor should pronounce an address of condolence and respect for the departed. I have now fulfilled that promise.

The Committee instruct me to report the following:

RESOLVED, That in the death of Robert F. Clark, the Bar of Columbia county has lost an able and distinguished member, and the suitors in her Courts a safe and trustworthy counsellor and advocate: That e tender to his friends the assurances of our most sincere sorrow and respect; That we will attend the funeral services in a body, and wear the usual badge of mourning: That the action of the Bar, relative to the death of Mr. Clark, be published, and a copy of the proceedings be presented to his friends.

The members of the Bar then proceeded in a body, headed by Hon. Wm. Elwell, President Judge, and Hon. M. G. Hughes, Associate Judge, to the funeral.

ROBT. HOWELL, } Secretaries.
J. B. ROBISON, }

TO OUR EXCHANGES.

AN IMPERTINENT LETTER, AND A PERTINENT ANSWER.

Editors will do well to read the following correspondence. As many papers contain the advertisement of The Triumph Truss Co., they will learn from this that they are doing a gratuitous job. If all publishers would follow our example in exposing such swindling establishments as attempt to get their advertising for nothing, the Press would soon be able to thin out their number, and thereby save trouble and money.

334 BOWERY NEW YORK Sept. 23, 1876.

MESSRS BROCKWAY & ELWELL.
Propers. "COLUMBIAN,"
Bloomsburg, Pa.

Gentlemen.—Yrs. of 15th inst. saying you should draw on us on 24th, at sight for $12 50, is received. Your Draft will not be honored, for two reasons. 1st, we never pay *Sight Drafts*, and especially in such close times as these, and any business man *ought* to have *more judgement* than to make such a Draft on *any one now*. 2d, our reading notices are not put in, as by contract which calls for *reading notices*, and they are inserted under the *head of Business Notices*, with *mark of date of advertisements, under them*. This as *you well know destroys* all the effect of reading *notices*. When you can advertise for us *right*, which we know you can do, we shall be *glad* to pay you. Hoping this will *reach you*, before Draft is sent.

Yours truly.
A. J. Denny, Secretary
Triumph Truss Co.

Bloomsburg, Pa. Sept. 25th 1876.

A. J. Denny Secretary.

Triumph Truss Co. 334 Bowery St. New York.

Dear Sir.—Yours of 23d, in which you refuse to honor our draft for 12.50 dollars for advertising six months, is received. Your ad. has not been inserted contrary to contract. It has not been inserted under the head of business notices, but has been put where all our reading notices are placed, with the date under it, just as every ad. in our paper is printed. We made no special arrangement with you to leave out the date. If the ad. had not been put in as called for in the contract, it was your duty to notify us, as all honest advertisers do, and not to wait until the time comes to pay, and then crawl out from your obligation by saying that it was not inserted according to contract. You say you refuse to honor our draft "1st, Because you never pay sight drafts, and especially in such close times as these, and *any* business man *ought* to have *more judgement* than to make such a draft on *any one now*." Dear sir, permit us to inquire whether you pay *any kind* of drafts, or bills? Since taking your ad. we have been informed that when we asked for money "The Triumph Truss Co.," would attempt to sneak out of it in precisely the way in which it has been done. As to what any *business* man would do, we hardly consider the Secretary of "The Triumph Truss Co.," or anyother c o. that makes itliving by swindling newspapers out of money earned by advertising, a competent judge. We hardly expected anything else from you and therefore are not greatly disappointed. We fail to see the difference between a sight draft at ten days notice, and a ten days sight draft, without notice. It is the practice of *business* men all over the country to draw on each other just as we intended to draw on you, but you do not understand it, perhaps because you are not among that class of men.

We want no more of you. Your ad. will be discontinued at once, and we shall endeavor to get satisfaction to the amount of twelve dollars and a half, in telling our readers and exchanges what kind of folks you are.

Yours &c.
Brockway & Elwell

We would call the attention of our lady readers to the artistic manner in which the windows of Clark & Wolf's store are arranged. The bright colors of the Fall Goods are so displayed as to show to the best advantage and light up the corner of Main and Centre streets better than a myriad of gas jets.

The *Republican* this week has omitted the name of Frank Evans as a Republican candidate for Senator. Why is this thus? What has Frank done? Or does Beckley propose to scalp each candidate *seriatim*?

CONNER VS. CONNER.—Which Conner is a member of the Republican Standing Committee? Beckley says "Sile," and Smith says "Capt."

The Rescue Hook and Ladder Company want to get their Truck here in time for the Fair, and in order to do so would like all who have subscribed to pay up promptly, and all those who have not already subscribed should do something for the "boys," as it will be a credit to our town to have a handsome Truck, and will also be of great service in saving property from the ravages of fire.

'Squire Morris heard the Explosion at Hell Gate in New York harbor on Sunday.—*Republican.*

A heavy Republican like the Esq. will hear and believe anything, and as a devout Presbyterian has the utmost faith about Hell and its surroundings.

THE FISH COMMISSIONERS OF PENNSYLVANIA A FAILURE.—The citizens of the counties of Columbia and Luzerne petitioned lately for the appointment of a fish warden for the said counties, to which application they have neglected to comply, the consequence of which is our river is completely barricaded with eel weirs and fish nets, which prove to be detrimental and destructive to all kinds of fish. Even fishing on Sunday is carried on with impunity in consequence of their neglect of said appointment. We hope the next Legislature may remove the present fish commissioners for neglect of uty, and suitable appointments be made.—*Berwick Independent.*

Our cotemporary is mistaken. J. K. Grotz and C. Margerum of Catawissa were appointed Fish Wardens for this county about two years ago, and have faithfully performed their duties. We are not aware that our river, so far as Columbia county is concerned, is barricaded by eel weirs, but if so the law makes it the duty of the Sheriff to remove them. All our people should unite to preserve our fish.

The editor of the Montrose *Democrat* takes exception to the use of the phrase "groaning tables." He thinks that tables do not "groan" under the weight of all the luxuries of the season. He thinks they "crack and tumble" but don't groan. We hadn't thought of it before but dare say he is right. We shall instruct our reporters hereafter not to let their tables "groan" but have them "crack" or "tumble."

It is a query among some how the "COLUMBIAN" knew the exact weight of the flour stolen from the senior editor of the *Republican.*

It was a good guess, but it must be remembered that the sacks contain either 25 or 50 pounds, and we knew that the senior editor of the *Republican* generally dealt in "light weights."

We are giving each week, however, the amounts of money stolen from the people by the republican officials-holders, but that subject does not seem to interest that "senior edisor."

HAYES & WHEELER CLUB.—We are informed that the "fun, frolic, and anecdotes" still constitute the main arguments in favor of Hayes at Beckley's & Smith's club. Finances, Expenses, Reform, &c., are subjects of too practical a nature for such fun-loving gatherings. To add to the amusement a church choir of our town was called into play last Saturday evening. We do not know what hymns they sang, but suppose that after some rip-staving joke hymn 1069 was selected commencing.

"Hark from the tomb a doleful sound;
Mine ears attend the cry."

And others appropriate to the occasion.
And wages are down to 75 cents a day!

The time for husking bees comes soon. The husking bee is a delightful entertainment given by the farmers, and is generally attended by eighteen young men, who kiss each of the girls in the house seven times, husk four ears of corn, and go home as soon as they have disposed of what cider they can find.—*Towanda Journal.*

The above is certainly a slander, so far as the young men are concerned, and we are not certain that it is not somewhat that way as regards the girls. However the ways of Bradford are not as those of Columbia. The young men here certainly husk more corn, and as for the kisses—why hat's their own affair.

ECLECTIC MAGAZINE.—The October number of the *Eclectic* is embellished with a fine steel-engraved portrait of the veteran and venerable biblical scholar, Dr. Philip Schaff, accompanying which in the letter-press is a brief sketch of his life. The literary contents of the number are comprehensive and various, numbering seventeen besides the editorial departments, and including something of interest to all classes of readers. The opening paper is an elaborate one from the *Quarterly Review*, entitled "Modern Philosophers on the Probable Age of the World." This is followed by a brief article from the same review on "South-Sea Island Mythology," and this in turn by a striking paper on "Russia in Europe," by Arthur Arnold; "Society in Italy in the Last Days of the Roman Republic," by James Anthony Froude; "Zulu Witches and Witch-Finders," by Lady Barker; "An Excursion in Formosa," "Natural Magic," "The Brigands of Bulgarian Song," and many other interesting articles are also given, and the editorial miscellany of literature, science, and art is copious and interesting.

Published by E. R. Pelton, 25 Bond Street, New York. Terms, $5 per year; single number, 45 cents.

THE GREAT EXHIBITION.

HOW TO SEE IT IN THREE DAYS.

[*From the New York Tribune.*]

FIRST DAY.

Ride around the grounds on the steam railway; then devote the whole day to the Main Building. As there are 36 different national sections in it, this will give an average of only 15 minutes to each. To some you will do well to devote half an hour or even more, while others will have to be passed over with a hurried glance. The most noticeable and characteristic exhibits in each are named below.

United States—Silverware, Jewelry, chemicals, furniture, the book trade pavilion, chandeliers, the piano pavilions, the marble and slate mantels, and the very extensive display of textile fabrics. The educational exhibits in the south and east galleries should also be seen.

The foreign countries are mentioned in the order in which they occur in the building beginning at the eastern end, and taking first those on the north side of the main aisle, and afterward those on the south side. The method of traversing the building should be to enter each section from the main aisle and return to the aisle before going to the next section. This will preserve the unity of the impression made by each national display. Exceptions will, of course, have to be made in the cases of the few sections which do not abut upon this chief artery of communication.

Mexico—Most noticeable are the immense casting of silver, the articles of Mexican onyx, and the leather and woven goods.

Netherlands—See the engineering exhibit and the East India curiosities.

Brazil—Notice the feather flowers and beetle jewelry; take a glance at the photographs and the furniture.

Belgium—See the court of laces and the school-house (both will be found at some distance back from the main aisle.) Notice in the aisle the great pulpit of carved oak.

Switzerland—Watches, lace curtains, embroideries, and carved wood-work are the best exhibits.

France—Half an hour should be spent here, examining the bronzes, porcelain, tapestries, silks, Limoges enamel, laces, ladies' dresses, and the multitude of fancy articles. See also the church images and decorations.

England—This department also requires much time. The silverware, porcelain, Doulton ware, ornamental tiles, furniture, and the product of the Royal School of Needlework are best worth notice.

India—The carved furniture, jewelry, fine tissues o silk and linens, shawls, and embroideries are admirable.

Canada—No special objects. A walk through the section will reveal a remarkable variety of excellent manufactures, resembling closely those of the United States.

Minor British Colonies—Beginning with Jamaica, which fronts on the central aisle, these exhibits extend in a line back to the wall. A glance should be taken at each.

The Australian Group—It includes Victoria, New South Wales, Queensland, South Australia, New Zealand and Tasmania; all lie together, but each has a separate court. While there is a marked similarity, each colony has objects of special interest, and each court should be visited.

Sweden—Here the costumed peasant figures; the porcelain the furs, and the iron are most worthy of attention.

Norway—See the filigree jewelry, the figures of Laplanders, and the picturesque iron exhibit.

Italy—Carved woodwork, mosaics, corals, jewelry, and photographs.

Argentine Republic—Not particularly interesting. See the minerals, the vicuna shawls, and the trunk that can be converted into a bed, hotel table, &c.

Peru—(back of the Argentine Republic)—The Aztec skulls and articles from ancient tombs are alone worth seeing.

Orange Free State—(still further back)—Diamonds and Ostrich Feathers.

Chili—Not much besides minerals.

China—Porcelain and wonderful carvings in wood and ivory. Do not miss the carved bedstead.

Japan—Give as much time as you can spare to this section. The bronzes, porcelains, lacquered work, embroidered screens are inimitable.

Denmark—Stop only to see the beautiful imitations of Etruscan and Egyptian pottery in the first alcove.

Tunis—(back of Denmark)—Notice the inlaid arms, jewelry, engraved silverware, and rich gold-thread embroideries.

Sandwich Islands—(next the wall)—Queen Emma's feather cloak, wooden bowls, and native ornaments and utensils should be seen.

Egypt—The gorgeous embroideries, the curious Arabic engraved brass salvers, the stuffed crocodile, and the handsome cabinets may be seen in a few minutes.

Turkey—The finest sights are embroideries in silk, linen and woolen, pipes, curious pottery, old arms, and attar of roses.

Portugal—(back of Turkey)—Here the peculiar pottery, the filigree jewelry and the fine carvings in wood for architectural ornaments are best worth seeing.

Spain—Examine the emblematic facade to the Spanish court; also, the mural tiles, sideboards, pottery, silver, and the large show of textile fabrics.

Russia—One of the most interesting sections. See the silverware, the malachite and lapis-lazuli objects, the cloths of gold and silver, and the furs.

Austrian-Hungary—Here the Bohemian glass, the Viennese work in gilt, bronze, leather, meerschaum and amber, the garnet jewelry, and the Hungarian opals should be seen.

Germany—The Berlin porcelain, the collective book exhibit, and the pianos are the best features.

SECOND DAY.

Visit first the Shoe and Leather Building. There is a good deal of sameness here, but the display gives, by its extent, a strong impression of the importance of this industry. The shoemaking machinery is very interesting. Go next to Machinery Hall. Three broad avenues run the whole length of this huge structure, and by traversing each slowly and diverging from the one on the south side into the hydraulic annex, a good general idea will be gained of the largest collection of machines in motion the world has ever had an opportunity of seeing. The following manufacturing processes carried on every day will be found worth stopping a few minutes to inspect: weaving silks, woolens, carpets, stockings, book marks, &c., printing, lithographing, paper making, scroll sawing, barrel making, glass engraving, chocolate and candy making, type casting, type writing, making gutta percha shoes, tobacco making, watchmaking, rock drilling, and many other operations. From Machinery Hall the visitor should walk rapidly past the buildings at the west end of the grounds, noticing particularly the glass factory and the Chilian, Japanese, English, and Spanish Buildings, entering the latter for a few minutes' stay. The Government Building, the Woman's Pavilion, and the Horticultural Hall will finish the day's work.

THIRD DAY.

Divide the day between the Art Galleries and Agricultural Hall. In Memorial Hall see the Castellani collection and the English gallery pretty thoroughly; look at Makart's Catherine Cornaro in the Austrian gallery; pass rapidly through the French, German, Swedish, and American collections, not forgetting, however, to notice in the former the Gobelin tapestry; see the Spanish and Russian pictures with more care, and do not overlook the Mosaics sent by the Pope, and a few really good Norwegian landscapes. Then pass to the annex, where there are acres of mediocrity, with here and there a good canvass. The Dutch and Belgian collections are perhaps the best, but there are some American and French pictures that ought not to be missed. The Italian marbles will be found pretty and attractive. Take, if possible, a half hour for the Photographic Hall, where there are admirable displays by English, French, Australian, German, Russian, Austrian, Swedish, and American Photographers.

In Agricultural Hall see first in succession the various foreign sections—English, French, Japanese, Dutch, Venezuelan, Danish, Swedish, Norwegian, Russian, Spanish, Portugese, Canadian, Italian,, and Liberian. During the remainder of the time at your disposal walk through the aisles in the American Department and examine the most interesting exhibits. The Aquaria should not be forgotten, and a little time should be devoted to the Brewers' Building near the Hall.

KIDNEY COMPLAINT.

Probably there is no complaint that afflicts the human system which is so little understood at the present time as some of the varied forms of Kidney Complaint.

There is no disease which causes such acute pain or more alarming. Its results than when the kidneys fail to secrete from the blood the uric acid and other poisonous substances which the blood accumulates in its circulation through the system.

If from any cause the kidneys fail to perform the functions devolving upon them, the cumulations are taken up by the absorbents and the whole system thrown into a state of disease, causing great pain and suffering, and very often immediate death. Hence the importance of keeping the kidneys and blood in a healthy condition, through which all the impurities of the body must pass.

PAIN IN THE BACK.

There is no remedy known to medical science which has proved itself more valuable in cases of Kidney Complaints than the Vegetine. It acts directly upon the secretions, cleanses and purifies the blood, and restores the whole system to healthy action.

The following extraordinary cure of great sufferers who had been given up by the best physicians as hopeless cases, will speak for themselves, and should challenge the most profound attention of the medical faculty, as well as of those who are suffering from Kidney Complaint.

THE BEST MEDICINE.

EAST MARSHFIELD, Aug. 11, 1870.

MR. STEVENS: Dear Sir—I am seventy-one years of age; have suffered many years with Kidney Complaint, weakness in my back and stomach. I was induced by friends to try your Vegetine, and I think it the best medicine for weakness of the Kidneys I ever used. I have tried many remedies for this complaint and never found so much relief as from the Vegetine. It strengthens and invigorates the whole system. Many of my acquaintances have taken it, and I believe it to be good for all the complaints for which it is recommended. Yours truly,

JOSIAH H. SHERMAN

PRONOUNCED INCURABLE.

BOSTON, May 30, 1871.

H. R. STEVENS, Esq: Dear sir—I have been badly afflicted with Liver Complaint for ten years; have suffered great pain in my back, hips and side, with great difficulty in passing urine, which was often, and in very small quantities, frequently accompanied with blood and excruciating pain.

I have faithfully tried most of the popular remedies recommended for my complaint; I have been under the treatment of some of the most skilful physicians in Boston, all of whom pronounced my case incurable. This was my condition when I was advised by a friend to try Vegetine, and I could see the good effects from the first dose I took, and from that moment I kept on improving until I was entirely cured by taking in all, I should think, about SIX bottles.

It is, indeed, a valuable medicine, and if I should be afflicted again in the same way I would give a dollar a dose, if I could not get it without.

Respectfully, J. M. GILE.
561 Third Street, South Boston.

NEARLY BLIND.

H. R. STEVENS Dear Sir—In expressing my thanks to you for benefits derived from the use of Vegetine, and to benefit others, I will state:—

When eight or nine years old I was afflicted with Scrofula, which made its appearance in my eyes face and head, and I was very near blind for two years. All kinds of operations were performed on my eyes, and all to good result. Finally the disease principally settled in my body, limbs and feet, and at times in an aggravated way.

Last summer I was, from some cause, weak in my spine and kidneys, and it was at times very hard to retain the urine. Seeing your advertisement in the Commercial, I bought a bottle of VEGETINE, and commenced taking according to directions. In two or three days I obtained great relief. After using four or five bottles I noticed it had a wonderful effect on the roughness and blotches on my body and legs.—I still used Vegetine and the humorous sores one after another disappeared until they were all gone, and I attribute the cure of the above diseases to Vegetine as the only reliable remedy. Once more accept my thanks, and believe me to be, Very respectfully,

AUSTIN PARROTT.
Dec. 1, 1872. No. 33 Grand St., Cincinnati, Ohio.

Diseases of the Kidneys, Bladder, etc., are always unpleasant, and at times they become the most distressing and dangerous diseases that can affect the human system. Most diseases of the Kidneys arise from impurities in the blood, causing humors which settle on these parts. Vegetine excels any known remedy in the whole world for cleansing and purifying the blood, thereby causing a healthy action to all the organs of the body.

Vegetine is Sold by all Druggists. Sept. 15-1m.

SIDDALL'S Magnetic Soap.

The Cheapest Soap that can be used for the following Reasons:

1st.—One bar will go as far as two of any other.

2d.—Only half the usual rubbing being required, there is a saving of more than the entire cost of the Soap in labor alone.

3d.—The Clothes are made SWEET, CLEAN, and WHITE without BOILING or SCALDING, thus all injury to them is avoided. There is a saving in fuel and hard work, and the washing is done in about half the usual time.

It is also guaranteed under a penalty of fifty dollars not to injure the clothes or hands, and as one trial will enable any person to ascertain the truth of these statements, it would never pay the proprietor to engage in an extensive system of advertising and claim such decided merit for his soap unless he knew from positive experience that it would prove to be in every respect what is claimed for it.

This is also a superior Soap for SHAVING and TOILET purposes.
